Empower Your Child This Term 4: Build Confidence and a Love for Learning!

As your child moves through Year 2, building a strong academic foundation is the key to unlocking their future potential. Our Term 4 Courses are specifically designed to provide the structured support they need to thrive in school assessments while fostering a genuine love for learning.

Give your child the perfect balance of essential skill-building and a dynamic, engaging classroom experience!

The Benefits of Our Term 4 Courses:

- **Targeted Skill Development:** We focus on sharpening the core pillars of primary education - creative writing, reading comprehension, critical thinking, and mathematical reasoning. Mastering these areas now ensures your child can tackle future academic challenges with absolute ease.
- **Engaging & Interactive Lessons:** We believe learning should be both effective and fun! Our curriculum incorporates hands-on activities, practical problem-solving, and creative exercises to keep young minds motivated, curious, and eager to learn.
- **A Supportive Environment:** We pride ourselves on creating a positive, encouraging atmosphere. In our classrooms, students feel comfortable asking questions, exploring big ideas, and developing their critical thinking skills in a structured yet warm setting.

Year 2 Term 4 Course

(Saturday, 10 October – 19 December)

Course	Session	Class Time*	Class Location*

- Vocabulary tests
- Progress test review

Year 2 WEMT Course

Our most comprehensive program yet - designed to unlock every student's academic potential and give them the skills to succeed when it matters most.

Our WEMT program is built on a simple belief: every child has the capacity to excel academically. What they often need is a structured environment and skilled guidance. That's exactly what this course delivers, in a way that builds genuine confidence, not just exam technique. If your child needs to build stronger academic foundations for the year ahead, our WEMT Course provides everything they need to thrive.

What the Course Covers:

- **Exam Readiness:** Students build a solid, well-rounded foundation across reading, writing, mathematics, and thinking skills. Structured lessons equip them with the confidence and targeted strategies needed to approach any assessment calmly and effectively.
- **Mastering Reading Comprehension:** Learners develop powerful, repeatable techniques for analysing complex texts across a range of genres and styles. They practise interpreting meaning at both literal and inferential levels, constructing well-reasoned responses, and selecting accurate multiple-choice answers under timed conditions. Close reading becomes second nature.
- **Mathematics Made Easy:** The course reinforces key mathematical concepts, essential formulas, and flexible problem-solving methods. Students work through number, measurement, geometry, and data — developing the clarity and assurance to handle any question format. We emphasise understanding over memorisation so that students can adapt to unexpected problems with ease.
- **Mind-Stimulating Thinking Skills:** Through engaging, brain-boosting activities, students sharpen critical thinking, logical reasoning, and pattern recognition. Each module is designed to be genuinely enjoyable, encouraging students to apply analytical skills in interactive, puzzle-driven ways that keep them motivated and intellectually curious.

Enrol today and give your child the foundation for long-term academic success.
